## First Aid/CPR, Staff Certification

Wallaceburg Christian School has a policy on student safety and proper care during times of injury or choking that dictates that all staff and bus drivers will receive training in First Aid and CPR on a rotating basis which the Board will reimburse the cost of the training only. Mileage will be paid by the participant. The Board will reimburse two paid staff members each year to receive this training.

Each year staff in different areas of school life will receive the training on a rotating basis as follows:

| | | | |
|---|---|---|---|
| Year 1 | 2006-2007 | Bus driver (PL) | Grade 7/8 |
| Year 2 | 2007-2008 | Grade 5/6 | Joy School |
| Year 3 | 2008-2009 | Grade 1/2 | Bus driver (D) |
| Year 4 | 2009-2010 | Resource | Kindergarten |
| Year 5 | 2010-2011 | Principal | Grade 3/4 |

Although the certificates are valid for three years, by ensuring this rotation, there will always be someone available on site to tend to serious injuries and first aid.

If possible staff are requested to take it in the summer months. It is the responsibility of the principal to set up the training sessions and arrange for supply teachers if necessary. A two day course has been offered by OCSTA in the past otherwise it is offered locally by calling St John Ambulance at 1 877 726-9928..
