

## GRADE 5 & 6

We have enjoyed getting to know each other in the first half of the year. Out of our 12 students, 3 are new to our school! We welcome Katie, Krista, and Jocelyn to WCS!

We have currently been writing poetry for the Fine Arts Competition. Here are some of our pieces:

Tank  
slow, gigantic  
destroying, blowing up, firing  
war machine, guns, music, hot tub  
relaxing, driving, partying  
fast, long  
Limousine  
by Nicholas

Work  
hard, difficult,  
fixing, writing, typing,  
job, building, hockey, basketball,  
running, shouting, exercising,  
happy, fun,  
Play  
by Jocelyn

There once was a little bug,  
That needed to be hugged.  
He was so sad,  
He missed his dad.  
He cried everyday in his rug.  
by Bradley K.

There once was a little troll,  
Who always liked to roll.  
He rolled and rolled,  
And fell into gold.  
That lucky troll that liked to roll.  
by Bradley L.

Our first science unit was about ecology. We went on a field trip to the DOW Wetlands to find out more about the water cycle. We played some fun games and learned more about how we can be stewards of creation.

We have currently been learning about body systems in health class. For a project, we had to pretend that we were interviewing the heart. We asked questions to the heart and the heart told us all about himself/herself.
