## Principal's Message

Greetings WCS,

Over my four years here at Wallaceburg Christian School, I have come to understand a few things about our school community that I would like to share.

**First:** We are a community that values the cost of Christian Education. Parents can't imagine sending their children to any other school. For this reason, they strongly believe in knowing what is happening to their children each day in the areas of spirituality, academics, social behaviour, and physical development; thus forming strong relationships with the teachers. Though not every parent shares the same priority, their number one concern is the well being of their child(ren).

**Second:** The community of WCS places a high degree of faith in God. He will remain faithful to our school year after year, as He has done for the last 46 years. No matter what happens, God will always be there!

**Third:** Since our school is smaller, we rely on everyone working together. This is evident in the way our students play together, even if there are age differences. It is the same for

our parents. Many of our members serve on the board, committees, and volunteer for the different events that are planned. We all work together because we need each other, just as the school needs everyone!

**Fourth:** Though we may not have the most up-to-date building (including the absence of a gym), high-end technology and equipment in every classroom, or specialty teachers for all subjects that allows for prep time, we do believe that we have something very special going on in this school that you cannot place a price tag on!

I have come to know that WCS is a loving school that values relationships with each other and personal contacts as being one of the highest valued items we have. Hence, I feel we have a treasured jewel that should not be traded away. However, it can be polished, thus causing the brightness to shine more for our community to see.

Having said that, I believe it is time to start thinking about the next 4 years. In four years time, our school will be 50 years old; what a mile stone! What are our hopes and dreams for the next four years, God willing? What are the big plans, and how will we get there? Yes, I know it is hard to get past the dollar amounts from one budget year to the next, but we do need **a plan** that will guide

us and give us direction. It is the plan that needs to be developed by more than just one man or group of board members.

I would like to begin discussing this concept with the Board, but I need your help. If you are interested in joining a task force that begins the vision planning, let me know. If you have ideas or suggestions, let one of your board members know. It is only through partnership that our school will grow and mature. We must all work together, with the help of God, to ensure that Wallaceburg Christian School remains strong and a beacon of light into our community. Also, let's not let the money factor prevent us from envisioning where we feel God is leading us.
